The official Competition Schedule is completed by the IWF Masters Committee, and can only be put together after the closing date of entries which is 20 April 2018. It is also dependent on the total number of entries for men and for women. The Committee cannot make changes to the schedule at the request of any Master competing who may have booked a flight to arrive after their competition or to leave before they are able to compete, nor does the Committee accept any responsibility in the event of this happening. Therefore it is advisable to count one day before and one day after according to the above time table.

IMPORTANT NOTE:

The above tables of European Masters qualifying standards have been set at a point midway between the old standards and the standards currently used for the World Masters championships. Adjustments to the old standards were long overdue and necessary due to a proven statistic that more than 600 European Masters are capable of achieving the World Masters qualifying standards. A further future increase cannot be ruled out if the numbers of competing Masters continues to increase.

Immediately below the tables of qualifying standards are the tables of start weights based on the Masters 10/15 kg rule (for more information on this please read the Masters Rulebook technical rules section. No person should consider competing in Masters competitions if they cannot achieve the set qualifying standards, however training injuries do happen and the 10/15 kg rule allows Masters to start the competition with weights that will allow them to achieve the qualifying standard.

If a lifter finishes in a medal position, i.e., first, second, or third, and fails to achieve the qualifying standard, a medal will NOT be awarded.
